

Preserve Your Most Significant Asset

With A Revolutionary New Service

Your home is the symbol of your success, but that dream home can turn into a nightmare if regular maintenance is not part of your routine. Often, homeowners do not have the time or skill to perform the tasks needed to preserve the beauty and value of their home. Now there is an easy solution to this age old dilemma.

For the first time ever, homeowners can relax knowing that thorough and regular home maintenance is readily available and requires none of their valuable time. HomeCare Maintenance Services which serves Bucks and Montgomery counties, will maintain your entire home from top-to-bottom and inside-and-out so you don't have to. HomeCare Maintenance has developed a comprehensive maintenance plan for residential homes that entails over 500 work items covering structural components, mechanical / electrical systems, appliances, utilities, and more. The maintenance plan has been crafted from exhaustive research into appliances, component, and equipment manufacturer's maintenance recommendations, consumer agency safety guidelines, and over 40 years of professional experience in maintenance and reliability engineering, home repair and remodeling.

After performing a thorough home maintenance assessment, a customized maintenance plan will be designed for your home. Well-trained, professional technicians will deliver your home's maintenance program. HomeCare Maintenance Services allows you to stay one step ahead of costly repairs with a

customized, proactive and preventive maintenance plan. If the need for a large repair does arise, HomeCare Maintenance will provide you a list of pre-screened and professional contractors.

"Our customers no longer need to worry about devoting their time and energy to home maintenance. Home maintenance tasks are performed during scheduled visits throughout the year and larger repairs, if required, can be handled by a single call to a preferred, pre-screened contractor," said Jack Doerr, company co-founder.

HomeCare Maintenance Services is dedicated to two core principles: extraordinary customer service and trust. The company builds its success on their employees' dedication to excellence and the trusted partnerships it develops with customers to maintain and preserve their homes.

HomeCare Maintenance is a revolutionary service company. No one else in the marketplace is dedicated to maintaining homes the way they are intended to be maintained. People often ignore home maintenance and are shocked to learn that a once simple problem has ballooned into an expensive situation that could jeopardize the value of their home. "Many people will maintain their cars, but in large-part they fail to maintain and protect the largest investment they make in life - their homes," notes HomeCare Maintenance partner, Tom Doberstein. "We truly believe that the HomeCare preventive maintenance program lowers the total cost of home ownership, while at the same time enhancing the home's value, safety, and appearance."

If you are a homeowner who wants to lower your cost of home ownership while freeing up time for yourself, contact HomeCare Maintenance Services at (215) 368-7100 or visit www.hcms.net.

For the first time ever there is a company that will maintain your home, top-to-bottom, inside-and-out, so you don't have to.
